Spiderman:

The Race for The Gems

Game Play instructions:

1. To Start the game press, enter.
2. Once you have pressed enter the game will take you through a series of loading screens that are for the purpose of telling the story of the game. There will be five seconds for each screen to allow the player to read. Once the five seconds are up, the player will be able to hit enter to advance the game.
3. Once the player gets to the first level, they will be able to move with WASD, and they will be able to aim and shoot by moving the mouse and left clicking.
4. The goal is for players to collect 4 gems to progress and move on to the next level.
5. On each level there are enemies that are going to attack Spiderman.
6. If Spiderman is touched by these enemies, he will be damaged. If spiderman is damaged, hearts will appear around the map.
7. If spiderman touches those hearts he will gain healing.
8. Along with catching the gems the player can collect the powerups sent for antient Haitian loa that are helping spiderman reach his goal. These power ups will grant rapid fire, increased speed, and double damage.
9. Spiderman can kill these enemies by hitting them three times with his web projectiles
10. There are 3 levels to this game because each level of 4 gems must be collected. In Aarons' breastplate, there are 12 gems and the gems that Spiderman is collecting are supposed to represent those gems.
11. In between each of the playable levels there are loadings, and these loading screens provide information about the game and the symbols that are being used.
12. These messages can be flipped though by hitting the space button.
13. If Spiderman has zero health at any point in the game a Game over Screen will appear and the player must start over
14. When Spiderman collects all 12 gems, the Game over Win screen will appear and the game is over.
